24-core multi-layer optical cable

Overview

• 24 Core fiber optic cable for high-performance and long-distance communication. • Multi-tube design with jelly-filled construction ensures protection against moisture and harsh outdoor conditions. HES Branded Single and Multi-Tube Steel Armored, Single-Jacketed Fiber Optic Cables - OM4 50/125µ MultiMode This HES branded fiber optic cable series, enhanced with OM4 MultiMode fiber technology, offers a wide range of applications with single-tube and multi-tube varieties. Then, two layers of aramid fibers are twisted bidirectionally for reinforcement, and finally a polyethylene outer sheath or an electric tracking. Fiber optic cable is a cable containing one or multiple optical fibers that are used to transmit the signal. The optical fiber elements are typically individually coated with layers and contained in a protective tube suitable for the environment where the cable will be deployed. Starting custom. The Starlight SWA Uni Tube multimode Fibre Cable is suitable for direct burial installations making it the perfect solution for harsh environments (Read more) The Starlight SWA Uni Tube multimode OM4 Fibre Cable is suitable for direct burial installations making it the perfect solution for the most. High-quality SC-SC single-mode (mono-mode) Loose Tube installation outdoor cable for laying in a tube above- or underground.
