4u server ai4090

Overview

OCG4780-4H5-H 4U GPU server with support for four RTX 4090/5090 GPUs, dual CRPS3000W redundant power, and five hot-swappable drives. Buy 4U AI Server with 10x NVIDIA RTX 4090 GPUs - AMD EPYC Processor for Deep Learning, HPC & Data Center at Aliexpress for. Find more 15, 200044142 and products. Enjoy ✓Free Shipping Worldwide! ✓Limited Time Sale ✓Easy Return. Q1: Are you a factory or trading company?

A: We are the factory with our own R&D team, set up in 2012. By continuing, I agree to the and authorize you to charge my payment method at the prices, frequency and dates listed on this page until my order is fulfilled or I cancel, if permitted. The Deep Learning 4-GPU Server 4U Rack-mount Workstation is a high-performance computer designed for artificial intelligence, rendering, and high-performance computing needs. This product is equipped with four high-performance GPU cards (such as the 4090 and 3090 series), offering powerful parallel. The product range covers multiple fields, including enterprise servers, cloud computing servers, high-performance computing (HPC), and database servers. The products are characterized by high processing power, high storage capacity, high bandwidth, and low energy consumption, and can meet the needs.
