Distribution box wkh

Overview

Power distribution blocks offer a safe,convenient way of splicing cables, providing a fixed junction tap-off point or splitting primary power into secondary circuits. You can use the distributor block to establish an electromechanical connection. WKH Power Distribution Terminal Block can be used in the construction of installation and distribution boards, as well as in the construction of mechanical controllers. The WKH block is installed on the NS 35 DIN Rail by snapping. They can also be fixed directly to the mounting plate using flanges. To share your reaction on this item, open the Amazon app from the App Store or Google Play on your phone. Details Prices for items sold by Amazon include VAT. Depending on your delivery address, VAT may vary at Checkout. 54. Ample Conductor Space:Features 4 x 11 holes, providing extensive space for multiple conductors up to 35mm².
