Fiber Optic Switch S5720

Overview

The S5720-SI series switches are standard Layer 3 Gigabit Ethernet switches that provide flexible full gigabit access and cost-effective fixed GE ports and 10GE uplink ports. If one port uses a GPON optical module, other ports cannot be used. It is used with a console cable. The console cable is not delivered with the switch and needs to be separately purchased if needed. The S5720-SI was developed based on next-generation high-performing hardware and the Huawei Versatile Routing Platform. The W Series AC Switches are advanced solid-state switching devices designed for efficient and reliable control of alternating current (AC) loads. S5720 uses a high-performance low-power network processor, provides Gigabit line-speed forwarding performance, supports green Ethernet line sleep capability, has the lowest power consumption of the same-level equipment in the industry, supports powerful QoS and ACL functions, and. The S5720-EI models with power sockets on the front panel can be installed in a 300 mm deep cabinet and maintained from the front panel.

S5720-SI Series Standard Gigabit Ethernet Switches

The S5720-SI series switches are standard Layer 3 Gigabit Ethernet switches that provide flexible full gigabit access and cost-effective fixed GE ports and 10GE uplink ports. The S5720-SI was

S5700 Series Switches Gigabit Fiber Optic Equipment Ethernet Switch ...

The S5700 Series Switches, specifically the S5720-28X-LI-AC model, are high-performance Gigabit Ethernet switches designed to meet the demands of modern enterprise networks. This switch is part

S5720-EI Series Switches

Huawei S5720-EI series provide flexible all-gigabit access and enhanced 10 GE uplink port scalability. They are widely used as access/aggregation switches in enterprise campus networks or gigabit

S5720Series

The switch supports high-density 2.5 Gigabit Ethernet ports, Providing targeted solutions for large scale 2.5G access point,2.5G PCIe card (PC & server) and NAS storage station etc access, simplifying the

S5720-EI Series Switches

The S5720-EI allows management personnel to remotely switch on the SYS indicator on the front panel. After configuration commands are used, the SYS indicator quickly blinks within a certain period,

Huawei S5720-EI Series Switches Product Datasheet

Huawei S5720 series Ethernet switches (S5720 for short) are next-generation energy-saving Gigabit Ethernet switches that function as the access devices to deliver high bandwidth or aggregation

Huawei Switch S5720-32X-EI-24S-AC (02359579) 24 port sfp fiber

Huawei S5720-32X-EI-24S-AC Gigabit Switch provides resilient, energy-efficient GE ports for access switching in data centers, and aggregation switching in enterprise campus networks.

S5720-SI Series Next-generation Standard Gigabit Ethernet Switch

The S5720-SI series switches (S5720-SI for short) are next-generation standard gigabit Layer 3 Ethernet switches based on new generation of high-performance hardware and Huawei Versatile

S5720-LI Series Simplified Gigabit Ethernet Switches

One S5720-LI switch can connect to multiple aggregation switches through multiple links, significantly improving reliability of access devices. The S5720-LI supports Ethernet OAM (IEEE

Huawei S5720-52P-SI-AC Switch 48xGE RJ45 4xSFP

Huawei S5720-52P-SI-AC delivers 48xGE access plus 4xGE SFP uplinks and 150W AC power for reliable campus aggregation. Simplify deployment and ensure

S5720-52X-SI-AC

The S5720-52X-SI-AC has similar indicators to those on the S5720-52X-PWR-SI-AC, except that the S5720-52X-SI-AC does not have a PoE mode indicator. For details, see Indicator Description.

Huawei S5720-LI Series Switches

The document describes Huawei S5720-LI series simplified Gigabit Ethernet switches. It provides an overview of the product including available models, port

Huawei S5720-32X-EI-24S-AC Switch 24x1G SFP

Huawei S5720-32X-EI-24S-AC delivers 24x1G SFP + 4xGE + 4x10G uplinks for high-density aggregation and flexible access in campus or SME networks. Order

S5700 Series Switches Gigabit Fiber Optic Equipment Ethernet Switch ...

Specification of S5700 Series Switches Gigabit Fiber Optic Equipment Ethernet Switch S5720-28x-li-ac The S5700 Series Switches, specifically the S5720-28X-LI-AC model, are high-performance Gigabit

S5720-28X-PWR-SI-AC Datasheet Overview

Overview Huawei S5720-28X-PWR-SI-AC is a Layer 3 Ethernet switch. It supports twenty-four Ethernet 10/100/1,000 PoE+ ports, 4 of which are dual-purpose 10/100/1000 or SFP, and 4 x 10G SFP+. It

S5720-12TP-LI-AC

If the optical port has an optical module installed and the electrical port has an Ethernet cable connected, the optical port is used for data switching after the switch restarts. You can configure a

Huawei S5720-52X-SI-AC Switch 48x GE 4x 10GE

Huawei S5720-52X-SI-AC delivers 48x 10/100/1000Base-T plus 4x 10GE SFP+ for high-density access and aggregation. Order online now.
