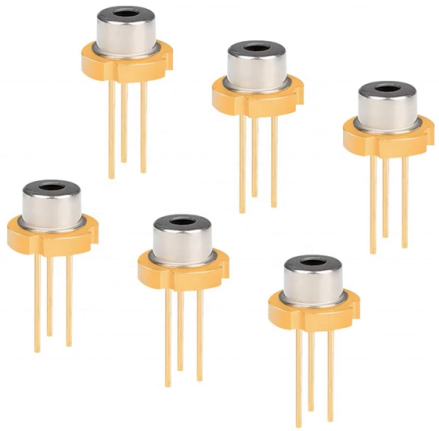
Green laser diode module



Overview

Unlike diode pumped green lasers, direct diode based Green Laser Modules offer high thermal stability, low noise and high modulation capabilities. Green Laser Modules are available with or without temperature control. Need help?

ProPhotonix provides a range of green laser modules in different form factors with a range of wavelengths, power levels, output beam shapes, and electronic functionality including a wide range of 520nm laser diode module options. Green pulsed lasers offer. 532nm DPSS green laser diode module adopts compact design, consists of perfect controlled laser diode, integrated driving electric circuit board, lens optics, cooling system. It offers high beam visibility green light output in various visual alignment applications.

Amazon : Green Laser Diode

Industrial Green Dot Laser Module, 520nm, Class 3R, Less Than 4mW, with APC Driver, 7~10V Operation Voltage, D10.5x19 mm, VLM-520-01 LPA, 30 meters working distance, Laser Head, Made

Green lasers | 500-559nm, pulsed CW & diode lasers | shop RPMC

RPMC provides a wide range of pulsed, CW & diode green lasers with 1000''s of units successfully fielded to satisfied customers. Green laser diodes provide unmatched performance in environments

Green Laser Diode Modules | World Star Tech

Unlike diode pumped green lasers, direct diode based Green Laser Modules offer high thermal stability, low noise and high modulation capabilities. Green Laser

Green Laser, compact green 532nm laser system, CW and Q

The green laser is easy to use, plug and play, no cooling fan, no cooling water required, no noise and no vibration during laser operation. The diode-pumped green lasers are based on our proprietary

Green Laser Diode Modules : Calpac Lasers Diode Modules Pointers

High quality, high visability Green Laser Modules are ideal for commercial, industrial, medical, and OEM applications requiring longer duty cycles, frequent intermittent use, and application specific tolerances.

Green Laser Modules

Quarton Incorporated''s direct green laser diode modules are compact, robust, and offer greater energy-efficient performance and longer lifetime.

Green Laser Modules

Understanding the Offering: This showroom presents modules, not individual diodes. Expect pre-assembled units with varying power outputs, wavelengths (typically 532nm, frequency-doubled

Focusable 515nm 520nm 50mW Grass Green Laser Diode Module

Find many great new & used options and get the best deals for Focusable 515nm 520nm 50mW Grass Green Laser Diode Module Dot/Line/Cross DC3.2V at the best online prices at eBay! Free shipping

532nm Green Laser Diode Module

Product description This green laser diode module features a 532nm wavelength and 200mW output power, operating at 3.7V to 4.2V. It includes a driver and aluminum heatsink for stable operation and

1421-93-000 Global Laser | Global Laser 1421-93-000 Laser Module

Acculase DD PWM Green Laser Modules The Global Laser Acculase range of Direct Drive PWM green LED laser diode modules provides a high level of optical and electrical performance at an economical

555nm Yellow Green Diode Module

© 2026 QK FIBER SYSTEMS - All rights reserved

Find many great new & used options and get the best deals for 555nm Yellow Green Diode Module - 515nm Laser Dot & Line - DC5V Industrial Use at the best online prices at eBay! Free shipping for

520nm Laser Module Industrial Green Laser Line Diode ...

Product Summary: 520nm Laser Module Industrial Green Laser Line Diode adjustable focus Line From Qiaoba 4.6 out of 5 stars, 8 ratings Customer reviews
