Monaco Trade Optical Module System

Overview

The only ultra-widefield retinal imaging device with integrated OCT, Monaco produces a 200° single-capture optomap® image in less than 1⁄2 second and also provides cross-sectional 40° OCT views of retinal structures. optomap® color rg, Sensory Retina, Choroidal, green af, and high resolution SD-OCT— with 5-modality bilateral capture in just 90 seconds. MonacoPro allows visualization of multiple image modalities at the same time, enabling a practitioner to detect pathology with a single click. Monaco enables a rapid multi-modality capture featuring color, autofluorescence. Optos' latest system is so new that Insight took its search global to find an ophthalmologist who has installed the technology in their clinic. What upgrades has the company made to its popular Monaco system?

It's been a while since a device has come along and created that 'wow moment' for Dr. 6Wresearch actively monitors the Monaco Optical Modulators Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and forecast outlook. Our insights help businesses to make data-backed strategic decisions with ongoing market dynamics.
