Multi-mode fiber optic LC bundle

Overview

6-strand multi-mode 50/125 (OM2) LC fiber optic pigtail bundle. Premium quality cable and 100% factory tested. Our stock fiber optic bundles are terminated with SMA905 connectors and are offered with high OH fiber, low OH fiber, and our mid-IR fluoride optical. LC Multimode Fiber Optic Cable Assemblies are available at Mouser Electronics. Multi-mode optical fiber is a type of optical fiber mostly used for communication over short distances, such as within a building or on a campus. Multi-mode fiber has a fairly large core diameter that enables multiple light modes to be. FiberTech Optica delivers fiber optic bundles to meet almost any requirement. They're also good for lighting small areas in models, prototypes, and circuit boards.

Multi-mode optical fiber is a type of optical fiber mostly used for communication over short distances, such as within a building or on a campus. Multi-mode links can be used for data rates up to 800 Gbit/s. Multi-mode fiber has a fairly large core diameter that enables multiple light modes to be propagated and limits the maximum length of a transmission link because of modal dispersion. The standard G.651.1 defines the mos

Industrial fiber optic bundle manufacturer, fiber

With virtually no limit on the number of fibers, all of our fiber optic bundles can be configured as spot, line, grid, hex, or custom shape.
