Huawei 5320 Aggregation Switch

Overview

The S5320 series gigabit Ethernet switches are energy-saving switches developed by Huawei to meet the demand for high-bandwidth access and Ethernet multi-service aggregation. Available in 16, 24, and 48 port models, the 5320 delivers secure, efficient connectivity across edge and wiring closet deployments while. the appearance of S5320-56C-EIThe 5320 Series is a family of high - performance, stackable multi - gig edge switches designed to simplify wired access for modern enterprise environments. Available in 16, 24, and 48-port gigabit models, the 5320 is a stackableuniversal hardware switching platform, providing end-to-end secure network segmentation and. The Huawei S5320-12TP-LI-AC is a certified refurbished Layer 2 managed Gigabit Ethernet switch with 8 x GbE copper ports and 4 x SFP uplink ports — supporting 10GbE upstream connections and powered by Huawei's Versatile Routing Platform (VRP) software. Backed by a 12-month Reboot IT warranty.

Article Content

S5320 Gigabit Ethernet Switches — Huawei products

The S5320 series gigabit Ethernet switches are energy-saving switches developed by Huawei to meet the demand for high-bandwidth access and Ethernet multi

5320 | Extreme Networks

Available in 16, 24, and 48 port models, the 5320 delivers secure, efficient connectivity across edge and wiring closet deployments while supporting 30W

S5320-56C-EI-48S-AC Datasheet Overview

© 2026 QK FIBER SYSTEMS - All rights reserved

Overview Huawei S5300 Series Switch S5320-56C-EI-48S-AC 48 Gigabit Ethernet SFP,4 10 Gig SFP+, with 1 interface slot, with 150W AC power supply, stackable, Enhanced layer 3 feature, 162 Mpps

5320 Series Switches

Available in 16, 24, and 48 port models, the 5320 delivers secure, efficient connectivity across edge and wiring closet deployments while supporting 30W PoE (802.3at Power over Ethernet) for a wide range

5320 Datasheet Map

Available in 16, 24, and 48-port gigabit models, the 5320 is a stackableuniversal hardware switching platform, providing end-to-end secure network segmentation and advanced policy capabilities.

Huawei S5320-12TP-LI-AC 8-Port GbE + 4-Port SFP Layer 2

Huawei S5320-12TP-LI-AC — 8-Port GbE + 4-Port SFP Layer 2 Managed Switch The Huawei S5320-12TP-LI-AC is a certified refurbished Layer 2 managed Gigabit Ethernet switch with 8 x GbE copper

Huawei S5320-SI V200R008C00 Switch Product Brochures

The S5320-SI series are gigabit Layer 3 Ethernet switches based on new generation of high-performance hardware and Huawei Versatile Routing Platform (VRP). It provides a large capacity,

Product datasheet Huawei S5320-36C-EI-28S-AC Managed Gigabit

The S5320-EI series enhanced gigabit Ethernet switches (S5320-EI for short) are next-generation energy-saving switches developed by Huawei to meet the demand for high-bandwidth

Why Invest in a Huawei Aggregation Switch? Is Your Network Ready

While access switches manage local device connections, the Huawei aggregation switch operates at a strategic layer, funneling data between hundreds of devices and the core ...

Huawei S5320-36C-EI-DC Switch Specs

The document provides product details and specifications for the Huawei S5320-36C-EI-DC switch. It includes an overview of the switch''s ports and features,

Aggregation Switch: Increasing the Priority of Special Traffic

The traffic policy is applied successfully, and packets sent by the special user (PC1) leave the aggregation switch through queue 5 on the outbound interface (uplink interface of the aggregation

5320 Series

The 5320 Series is a family of feature-rich edge switches designed for the next-generation digital enterprise. As a universal hardware platform, the 5320 Series end-to-end secure network

link aggregation (IEEE802.3ad) on Huawei S5700

Link aggregation, in other words trunking, is a technique that helps to increase bandwidth by bundling multiple physical interfaces into a logical one, named Eth-trunk. Besides bandwidth

Huawei S5732 Switch: High-Performance Aggregation

Explore Ideal Aggregation and Campus Switches, includes CLI setup examples, technical comparisons with Cisco, and use-case scenarios for

Example for Configuring Link Aggregation in LACP Mode

S1720, S2700, S5700, and S6720 V200R011C10 Configuration Guide - Ethernet Switching This document describes the configuration of Ethernet services, including configuring link aggregation,

Standalone AC Solution: Aggregation Switches Function as Gateways

Core switches set up a CSS that functions as the core of the entire campus network to implement high network reliability and forwarding of a large amount of data. Aggregation switches set up stacks to

LINK AGGREGATION | CONFIGURING ETH-TRUNK IN LACP MODE ON HUAWEI SWITCHES

This video generally talks about link aggregation and deeply explains how you can configure ETH-TRUNK in LACP mode, set the preemption delay and also shows ...

Huawei S5320-36C-EI-28S-AC Switch 28x GE SFP 4x

Huawei S5320-36C-EI-28S-AC offers 28x GE SFP and 4x 10GE SFP+ for high-density aggregation and flexible uplinks. Order online today.
