# Metal surface-mounted electrical box

## Overview

Our metal wall boxes are finished to match our faceplates which gives you an authentic look when mounting electrical accessories on the surface.

## Key Takeaways

Surface mounted metal electrical boxes are designed for installing electrical fittings like switches and outlets on solid surfaces without the need for recessing. They are ideal for retrofits and visible installations, offering strong support and ample wiring space. Features: Typically made from scratch-resistant steel with an epoxy powder coating, these boxes are durable and suitable for commercial environments.

Types: Available in various sizes and configurations, including 1 and 2-gang options. Customization: Many suppliers offer customization options to match the finish of sockets and switches. Installation: They allow for easy installation of power points without removing material from the wall.

For more information, you can check out suppliers like Electrical2Go, Toolstation, and Screwfix.
